

January 18, 2017

Dear Intermountain Section Member:

The 57th Annual Meeting of the ITE Intermountain Section will be held on May 18-20, 2017 at the Snow King Resort in Jackson, Wyoming. The Section Board is introducing a new award to support our students and the Intermountain Section's Ellis L. Mathes Scholarship fund, and we want you to be a part of it!

All contributions to the scholarship fund from members of each chapter (Idaho, Montana, Nevada, and Utah) from now until the end of our Annual Business Meeting on Friday, May 20, 2017, will be tallied by chapter. The total chapters' contributions will then be divided by the total members registered within each chapter to determine the average contribution per member. The chapter with the highest average contribution per chapter member at the end of the Annual Business Meeting will win the inaugural Highest Chapter Contribution Award! Each year the winning chapter will have their victory displayed on a special plaque that will be displayed at the Annual Meeting.

This is a friendly competition to help increase our support of transportation engineering and planning students in our Section and promote the future of ITE. Please collaborate with your fellow ITE Chapter members to contribute, support, and win this award!

If you have any questions, please contact me or one of the other Section officers. Thank you for your attendance and participation in the ITE Intermountain Section!

Sincerely,

Devin Moore, PE, PTOE
President, Intermountain Section ITE
