

## AWARDS COMPETITION

### TRANSPORTATION ENGINEERING PROJECT OF THE YEAR

#### AWARDS COMPETITION

This competition was instituted in 1984 to recognize those agencies, firms or individuals who have visibly contributed to the transportation engineering profession through their work efforts. There is no monetary value connected with this award, which is given as congratulations for a “job well done”.

#### ELIGIBILITY

The competition is limited to agencies, firms and individuals within the Intermountain Section of the Institute of Transportation Engineers for projects completed within the Intermountain Section states of Idaho, Montana, Nevada and Utah. The project may be of any type (study, design, or construction) or of any magnitude. Projects must have been completed after April 1, 2018 and prior to April 1, 2019. Design projects may be considered complete at a time just prior to construction or during construction.

#### JUDGING CRITERIA

Project submittals will be judged using the following criteria:

1. Use of sound engineering principles
2. Technical value to the transportation engineering profession
3. Originality and innovative applications
4. Social and environmental significance
5. Project complexity

No consideration will be given to the magnitude or dollar value of the project in the judging.

#### SUBMITTALS

Those wishing to submit a project for consideration must do so prior to the deadline date of **April 1, 2019**. The submittal shall consist of a narrative project description of not more than ten typewritten pages. It shall include the name of the agency, firm or individual; the name of the engineer in responsible charge of the project; project location and information necessary to judge the project based on the stated criteria. Reports or drawings may also be submitted if necessary to illustrate the nature of the project. Applicants are also encouraged to submit a technical paper about their project for presentation at the annual meeting.

#### **SEND SUBMITTALS TO:**
